FIFA 12's impact engine makes tackles look and feel much more realistic, and will no doubt result in more player injuries! When two players jump for a ball in the air in FIFA 12, they will no longer always land together perfectly, but may fall depending on the contact made with the other player.. What's new in FIFA 12? Building on the success of recent years, FIFA 12 introduces three main developments: precision dribbling, tactical defending and the player impact engine.
